

END-OF-PROGRAM STUDENT LEARNING OUTCOMES (EPSLOs)

– Nursing (AAS)
Division of Nursing

Program Director: Jacob Fisher, PhD, MSN, RN

Date Updated: August 2023

PLAN
EXPECTED PROGRAM LEARNING OUTCOME
All students completing this program are expected to have achieved the following learning objectives:
EPSLO 1: MANAGEMENT OF CARE At the end of the program, the student will be able to apply nursing knowledge that enhances the care delivery setting to protect the client and health care personnel.
EPSLO 2: SAFETY AND INFECTION CONTROL At the end of the program, the student will be able to select techniques to protect clients and health care personnel from health and environmental hazards.
EPSLO 3: HEALTH PROMOTION AND MAINTENANCE At the end of the program, the student will be able to demonstrate knowledge involving nursing care of the client that incorporates knowledge of expected growth and development; prevention and early detection of health problems, and strategies to achieve optimal health.
EPSLO 4: PSYCHOSOCIAL INTEGRITY At the end of the program, the student will be able to execute nursing care techniques that promote and support the emotional, mental and social well-being of the client experiencing stressful events, as well as clients with acute or chronic mental illness.
EPSLO 5: BASIC CARE AND COMFORT At the end of the program, the student will be able to examine patients' performance of activities of daily living.
EPSLO 6: PHARMACOLOGICAL AND PARENTERAL THERAPIES At the end of the program, the student will be able to apply the steps of safe administration of medications and parenteral therapies.
EPSLO 7: REDUCTION OF RISK POTENTIAL At the end of the program, the student will be able to develop a plan of care to reduce the likelihood that clients will develop complications or health problems related to existing conditions, treatments or procedures.
EPSLO 8: PHYSIOLOGICAL ADAPTATION At the end of the program, the student will be able to appraise best practices to manage and provide care for clients with acute, chronic or life threatening physical health conditions.
