

PROGRAM LEARNING OUTCOMES (PLOs)

– Practical Nursing (PN)

Division of Nursing

Program Director: Jacob Fisher, PhD, MSN, RN

Date Updated: August 2023

PLAN
EXPECTED PROGRAM LEARNING OUTCOME
All students completing this program are expected to have achieved the following learning objectives:
PLO 1: COORDINATED CARE At the end of the program, the student will be able to communicate and collaborate with the health care team members to facilitate effective client care.
PLO 2: SAFETY AND INFECTION CONTROL At the end of the program, the student will be able to select techniques to protect clients and health care personnel from health and environmental hazards.
PLO 3: HEALTH PROMOTION AND MAINTENANCE At the end of the program, the student will be able demonstrate knowledge of nursing care for clients that incorporates knowledge of expected stages growth and development and prevention and/or early detection of health problems.
PLO 4: PSYCHOSOCIAL INTEGRITY At the end of the program, the student will be able to support the emotional, mental and social well-being of the clients.
PLO 5: BASIC CARE AND COMFORT At the end of the program, the student will be able to apply knowledge to provide comfort to clients and assistance in the performance of activities of daily living.
PLO 6: PHARMACOLOGICAL THERAPIES At the end of the program, the student will be able to recognize safe processes related to the administration of medications and monitor clients who are receiving parenteral therapies.
PLO 7: REDUCTION OF RISK POTENTIAL At the end of the program, the student will be able to reduce the potential for clients to develop complications or health problems related to treatments, procedures, or existing conditions.
PLO 8: PHYSIOLOGICAL ADAPTATION At the end of the program, the student will be able to recognize nursing best-practice for clients with acute, chronic or life-threatening physical health conditions.
