

END-OF-PROGRAM STUDENT LEARNING OUTCOMES (EPSLOs)
– Nursing (AAS)
Division of Nursing

Program Director: Jacob Fisher, PhD, MSN, RN

Date Updated: January 2025
Begins with incoming Spring 2025 cohort

PLAN
EXPECTED PROGRAM LEARNING OUTCOME
All students completing this program are expected to have achieved the following learning objectives:
<p>EPSLO 1: At the end of the program, the student will be able to develop a client plan of care utilizing the Clinical Judgement Model to safely meet the physical, psychosocial, cultural, spiritual, social determinants of health, and Maslow’s Hierarchy of Needs across the life cycle in a variety of health care settings.</p>
<p>EPSLO 2: At the end of the program, the student will be able to apply critical thinking and the Clinical Judgement Model to find solutions to individualized care while assuring accurate and safe nursing care, which moves the client towards positive outcomes across the life cycle.</p>
<p>EPSLO 3: At the end of the program, the student will be able to engage in the pursuit of knowledge and life-long learning by analyzing pertinent data that leads to evidence-based decision making, excellence in nursing practice, and improvements in client care across the life cycle in a variety of health care settings.</p>
<p>EPSLO 4: At the end of the program, the student will be able to embody caring attitudes, behaviors, therapeutic communication, functional competence, safety, ethics, and the professional Code of Conduct to clients across the life cycle in a variety of health care settings.</p>
<p>EPSLO 5: At the end of the program, the student will be able to conduct a head-to-toe assessment on clients across the life cycle and interpret the findings.</p>
<p>EPSLO 6: At the end of the program, the student will be able to integrate the principles and nursing interventions to safely administer medications and educate clients across the life cycle in a variety of health care settings.</p>
