

PROGRAM LEARNING OUTCOMES (PLOs)
Cybersecurity A.A.S.

Program Director: Joanna C. Hillman, Ph.D.

Date Updated: July 1, 2026

PLAN	
EXPECTED PROGRAM LEARNING OUTCOME	
All students completing this program are expected to have achieved the following learning objectives:	
OBJECTIVE 1:	At the end of the program, the student will install and securely configure, operate and maintain a computer network, including intrusion protection.
OBJECTIVE 2:	At the end of the program, the student will assess cybersecurity risk management policies and recommend revisions in order to adequately protect an organization's critical information and assets.
OBJECTIVE 3:	At the end of the program, the student will utilize appropriate ethics in protecting networks from intrusion, including protecting the confidential nature of stored data.
OBJECTIVE 4:	At the end of the program, the student will demonstrate fundamental digital forensic examination of computer hardware, networks and security appliances.
