

PROGRAM-LEVEL - STUDENT LEARNING OUTCOMES
– PN Program
Division of Nursing

Program Director: Dr. Catherine Griswold

Date Updated: August 1, 2018

PLAN
EXPECTED PROGRAM LEARNING OUTCOME
All students completing this program are expected to have achieved the following learning objectives:
OBJECTIVE 1: Communication Communicates patient/family plan-of-care preferences to the health care team.
OBJECTIVE 2: Collaboration Collaborates with health care team to provide individualized, culturally appropriate, relationship-centered nursing care.
OBJECTIVE 3: Critical Thinking Make judgments in practice, substantiated with evidence, that integrate nursing science in the provision of safe, quality care for diverse patients and their families in collaboration with the health care team.
OBJECTIVE 4: Safety Identifies strategies that create a safe environment while appreciating the cognitive and physical limits of human performance (safety).
OBJECTIVE 5: Informatics Applies technology support safe and effective patient care.
OBJECTIVE 6: Professional Standards Function, according to scope of practice requirements, as an ethical licensed practical/vocational nurse collaborating and communicating successfully with patients, families, and members of the interprofessional team (relationship-centered care).
OBJECTIVE 7: Professional Responsibility Engage in reflective practices to promote one's journey toward self-fulfillment (personal and professional development).
OBJECTIVE 8: Safety/Technology Provide a safe environment using technology and information systems in nursing practice.

OBJECTIVE 9: Advocacy

Advocate for the LPN's unique role contributing to equal access to safe, high quality, affordable health care, with a special emphasis on management of long-term, chronic care for underserved and other vulnerable populations (personal and professional development).
