Graduation Rates

IPEDS Graduation Rate

IPEDS requires colleges to report on graduation rates each year. Graduation rates are calculated as the percentage of full-time, first-time freshmen who complete their program within 150% of normal time for their academic program. For example, if the normal graduation time for an associate's degree is two years then the 150% graduation time would be three years. The figure below shows the 150% graduation rate for Trocaire freshmen compared with national two-year and four year school averages over the last five years. Note that the national, 4-year school data for the 2017 cohort was not yet available at the time of writing.

	2019 (2013 cohort)	2020 (2014 cohort)	2021 (2015 cohort)	2022 (2016 cohort)	2023 (2017 cohort)
Trocaire Students	32%	23%	23%	23%	19%
2-Year School Average	33%	34%	35%	35%	36%
4-Year School Average	60%	60%	61%	61%	

Trocaire Graduation Rate

Since many of Trocaire's students are enrolled part-time it may take them more time to complete their degrees than students at a typical four-year school. Thus, the measure of completion within 150% of expected time may not be the best measure of our students' success. A graduation rate was developed that shows the percentage of new students who graduated within six years of starting at Trocaire. The figure below shows the six year graduation rates of both freshmen and transfer students, with the average of both, from the fall 2013 to fall 2017 cohorts.

	2019 (2013 cohort)	2020 (2014 cohort)	2021 (2015 cohort)	2022 (2016 cohort)	2023 (2017 cohort)
Freshmen	45.0%	39.4%	37.6%	37.1%	32.1%
Transfers	64.5%	68.9%	68.2%	72.2%	71.8%
Average	57.7%	58.6%	57.5%	59.0%	59.8%
