

Transfer-out Rates

IPEDS Transfer-out Rate

Trocaire is required to report transfer-out rates to the Integrated Postsecondary Education Data System (IPEDS) each year. The IPEDS definition of the transfer-out rates includes the percentage of first-time freshmen students enrolled in one fall semester who are known to have transferred out of the institution within 150% of normal time to completion. Trocaire's transfer-out rates over the past five years are shown in the figure below.
